danpaul88 wrote on Thu, 02 November 2006 14:08no. As has been explained before, the x64 / win 2000 problems are caused by the software which renguard is packaged in, its not renguard itself which is incompatible with x64 / win 2000, but the packaging software.

Therefore it needs pretty much rewriting completely to work in a new packager which IS x64 / win 2000 compatible.

as I understand it anyway...
