---

Here are two pics of what happens when i attempt to start RG.

i don't hate a 64 bit chip (P4 HT)

it has worked for over a year on this comp.

Norton is not the problem.

Could be windows updates, not sure, but is not KB917422.

have installed the "patcher" thing i found somewhere. did not help.

Any help would be greatly appreciated.

Ty
