AircraftkillerI would be impressed if you could skin and model... But you can only model, and so can about a million other people online.

Learn to skin the models, present them again, and I'm sure your skill would really shine.

I just never had to skin them before, we always had a few skinners on our mod team that I could send my models to to get skinned for the mod. I'll get the skinning part down sooner or later...

FerhagoWOW! ACK actually complimented you!

Hmmm, do I hear sarcasm?
