I don't use ventrillo for anything. The ONLY thing about it that is good is the voice quality.
Everything else completely blows. This is one of the main reason I choose to use Teamspeak for
my community. I just figured I'd extend the offer and throw Ventrillo in there for anyone who is hell
bent on Ventrillo. It would obviously be based on the amount of interest. I wouldn't throw up a
server just for one or two people. Thanks for that tid bit of information, though.
