Hmm.. I'm definately on the right track.

I don't have the JFW_Attach_Script_On_Custom script, I have JFW_Attach_Script_Once_Custom and JFW_Attach_Script_Custom. Is there any HUGE difference?

Also under the "for script name" part I put "PDS_Test_Follow_Waypath" don't I?

Thanks a LOT for the help! I appreciate your time and patience. This helps out so much and makes it so much better.

Thanks again!
