Do you know what the preset is, and where I can find it? Or can I only add it in gmax?

Go to Presets > Objects > Simple > CnC Objects > there you find the three pt presets for GDI, Mutant and Nod in that order.

The preset name for them is pct_zone_gdi, pct_zone_mutant or pct_zone_nod

When you spawn these, you wont be able to see them untill you find them and click them.
