jonwil wrote on Sat, 09 December 2006 21:32I think "beta" probably refers not to the public beta test that several community members have but more to the "beta" version of renegade that we saw in lots of screenshots. The one that looks more like C&C vs the crappy late-stage changes they made where they replaced lots of models (such as pretty much all the nod soldiers and vehicles)

Those models are all publicly available.
