renegade wont work with 3.0, says "bhs.dll not found or didn't load correctly"

in the readme, you said that if I got that error, I should look for dllload.txt, well I have it and this is what it says:

bhs.dll failed to load, error = 126

bhs.dll failed to load, error = 126

bhs.dll failed to load, error = 126

bhs.dll failed to load, error = 126

bhs.dll failed to load, error = 126

bhs.dll failed to load, error = 126

bhs.dll failed to load, error = 126

(I tried multiple times as you can see)
