Crimson wrote on Sun, 10 December 2006 11:03The first cheats were big heads and wallhacks, with the Final Renegade discoveries with objects.ddb soon after.

i remember when that all kicked off..  
the memories

Crimson how will the ladder calculate ranking points?

The original WOL one was seriously flawed i remember back in to RenEvo chat( a good few years ago) SK or Scorpio cannot remember who had a fantastic formula which sounded great.
