Does your house have a computer terminal which destroys the whole building?
When was the last time a military soldier was able to cloak from the naked eye?
Since when did the military construct an orbital weapons platform?

Renegade IS unrealistic.

My pet peves include people blocking my taqnk when im retreating for repair, people who spam I
Need Repair when they are perfectly capable of doing it themselves and long boring one sided
point whore games. Bugger all you can do about the first two, but as for the third.... NUKE THE
PED! lol. But I see where you're coming from.
