I noticed that 3.0 adds new sounds in the buildings, the newscasts in the Hand of Nod are cool.

Sadly, I am getting this a lot when I start up Renegade, and will have to restart for it to look normal again.

I think I will uninstall 3.0 for now, the extra features are nice, but it is too buggy.

In my opinion, scripts.dll 3.0 is a step in the right direction...with about a mile to go.
