Subject: BrenBot + FDS help

Alright I have 2 problems:

1) When I Use FDS and start up everything the FDS window comes up
and everything is running fine until it says "Creating Game Channel..." and about 10 seconds later
it says "Failed to create channel" then it does that over and over until the FDS crashes. What do I
do?

2) How do I configure BrenBot? The answer to that or a link to a Brenbot tutorial would be nice(the
link on the Brenbot site doesnt work.)

Thank you ahead of time.
