F100d3d, no offence but your so called "community" is dead to begin with. No active clans (except a 4 man clan called R*R total n00bs, we 0wN3d them in a cw), no active people (except like 5 people on the forums). 07 is gone anyway cuz he now has a full time job, (he won't be playing in jelly no more either), 18 is here to stay so I have no idea where you got from AND, after you brought up the argument "u have 4 members", I showed you WAY more than that over msn, and have plenty SS of them in YOUR TS server. OR, like i have said 5 million times, add trooprm1-18 to your wol buddies list, and if anyone wanted a 18vs18, I WOULD BE ABLE to arrange that
