You know where you were thinking, "naa dan is never going to pull this off". with the help of Dave Anderson, i am very close to finishing. i need a test map though, would someone be kind enough to create an image for me? i just need it to be centered at 0. and width needs to be 350 pixels. i would do this myself, but i can't get LE to work. it can be any map of your choice but i would prefer one of the standard multiplayer maps.
