<http://files.filefront.com//;6458769;;/>

please can someone bone my semi-trailer model.

i cant understand an of the boning tutorials-even westwoods

of course, i might let whoever bones it use it; but if its crap tell me and ill bash my router till i can finally understand them. same if i am being utterley stuipid doing this

note that publishing other authors work without permission is an offence.
