Not worth making a Server unless you get one of those a00000000 nicknames, which honestly I think is bullshit. If you remember back when RenStation (With Speed059 running it) was around, Fastc0nn1 & Fastc0nn2 was only a tad scroll away, now you have to gay WAY DOWN to find a Server begining with the letter "F".

Would be better if we got rid of those a00000000 nicknames, but then again no one will
