icedog90 wrote on Wed, 03 January 2007 19:30 Even though the Renegade 2 engine doesn't compete with modern FPS games, it still is a whole lot better than what we're stuck with now. And besides, I believe in gameplay much more than graphics.

With you 100%, and if you look at it, graphics really aren't that bad at all. Renegade graphics aren't bad at all, compared to other games they aren't the greatest, but lets be honest, they aren't horrible at all.
