Have what you call "RGlite" present the option of unbanning people.  
(or, more accurately, ask for confirmation of the ban IE:  
PPlayer XXX was caught and banned for "FR" in "Noobstories" Ban?  
etc)

Serial banning will Pwn. (please finish this)

<3 BI's SSAC. That needs a better name...

EA: We -need- the source code!

Couple of ideas and comments.

can we have less ReneDrama (tm) please?

(BHS should make it a legally registered trademark lol)
