Subject: Help! VIS won't work.
Posted by Sanada78 on Fri, 06 Jun 2003 10:34:11 GMT

I've just found out something else, I installed Ren with all the tools onto a different computer. I then used a basic mesh to apply VIS too. I did what you do too apply VIS and guess what, the

my computer (Geforce 2 MX, Windows 2000). That must mean there is a fault in the program it's self or I have downloaded a faulty file. I'll download the Renegade Tools again and install it again too see if the problem fixes.

If this won't fix it then I can't possible apply VIS too any of my maps.
