I just had to give a speech to my poker players tonight because I've heard that some of them are doing marijuana outside my house at breaktime. I basically told them that I don't know what I ever said or did to imply that it was OK to bring illegal drugs anywhere near my house.

I also drink only once or twice a year and never to drunkenness, so don't call me a hypocrite. I think people who need to get high or drunk to have a good time are pathetic. I swear some people think that a party without drinking can't be fun. Lame, lame, lame.

Have to agree with this, I dont drink much myself.

But there is a big difference between alcohol and drugs, one is socialy acceptable and the other is not, also alcohol can be good for you if you dont over do it, like one glass of red wine is good for your heart.

Alcohol is used for medical reasons, for cleasing wounds, back before pain killers, doctors used to give it to the people they work on to numb the pain.

Further back you go, alcohol was the only other drink other then water in some civilizations and communitys and everyone had it, from babys, kids and to adults.

Alcohol is only bad if you overdo it, like everything elas if you overdrink or overeat something, you can harm yourself, you can even kill yourself on water if you drink enough of it in one day, I believe I read it takes 160 pint size glasses to do that.
