Alex wrote on Wed, 17 January 2007 11:54Crimson wrote on Wed, 17 January 2007 11:52There's a really cool program called ModToaster created for Generals that can be made to work with other games. I met these guys at the Community Summit and I plan to talk to them about possibly modding it to work with Renegade.

I'm going to take a relay crazy wild guess here and say it's a automatic map downloader? =D

LOL I guess I could have mentioned that, but yes. It actually can install and uninstall full mod packages for Generals without breaking anything which is really cool.
