I do believe that it can, just like advantage skins/sounds, clearscope and radar hack can. You can benefit from all information you get more as long as you use it correctly.

That doesn't mean information is a cheat... I have my Renegade running full detail, that mean I can see SBH flicker when they jump and I can see them kick up dirt when they run. Someone with low detail cannot see this, and therefore I have an advantage over them. Am I cheating?
