danpaul88 wrote on Mon, 22 January 2007 06:11 Yes, but was that with the extra shaders and stuff added in scripts.dll 3.0+ ?

Try disabling shaders in your Renegade Options (Options -> BHS.dll Options), restart Renegade and see if that helps your FPS. If it does it's likely your card simply can't handle the shaders in 3.0 +

I'd no doubt say the same, your card is most properly struggling to handle the scripts.dll 3.0
