Quote: any estimated time this will be done?

This beta is near to release, i estimate 1-2 weeks max.

Quote: Also what server will this be on?

There is no set server for it, though a few people already have plans to host dedicated servers for it.

And the file size i decided we didn't really need to have the textures as tga, so all them are Dds now and that alone took down the filesize down to what it is now.

I'm sure it wont be only 65 mb when the level edit is fully done, so it may get back to 100, but i doubt we will see the 400mb mix's anymore for this map.
