CarrierII wrote on Tue, 23 January 2007 14:47Can you link us to the site that said it was adware? And why would that do what it did?

Sure, the site is www.google.com and the link I clicked on was this one: http://www.liutilities.com/products/wintaskspro/processlibrary/rlvknlg/

As to why it prevented me from connecting to Ren-Guard I have no idea, maybe it used the same port or something to do with that?
