Problem: the server lags. Looks likes low kbps.

~ Net Update Rate settings is correct...

Server specs:

CPU: Single Processor Dual Core Xeon 5050 - 3.0 GHz (Dempsey) - 2 x 2MB cache w/ HT

Ram: 2 GB FB-DIMM Registered 533/667

Uplink Port Speeds: 1000 Mbps Public & Private Networks

This should be far enough for a good server i think :S
