lifen803l see why it only costs five bucks now.

A lack of common sense and a great abundance of ignorance would lead one to believe that. Renegade has been out for almost a year and a half, games tend to go down in price after a while. Renegade is \$20 by itself, bundled in EA's game pack it's \$5. Just wait a year or two and that lame game you call "Planetside" will be selling for a similar price.
