i'll take a closer look in the search. first time i came up kinda dry, it sent me to that renhelp.net, which told me stuff I already know...

as for the immune and tib heal, yes I know there is an area to grant sheid and in there there is skinchemtrooper, skinmutant and shieldchemtrooper. but none of them work. but then, after each time I picked them up, i did jump back in a apache and flew down the the tiberium, so that could be whats making it go away if it is actually giving it.
