C&C3

(thanks zrgvsh) The new C&C3 trailer I posted about yesterday is now available for downloading. Just click on the picture below to get it from Yahoo. It weighs in at a hefty 89MB, and well worth checking out. In my personal opinion, it's the BEST trailer to date. The cinematic scenes shown in the video are a much welcome back sight. Command & Conquer has returned to it's roots!

NOTE: Those of you who can't view the HD version of the trailer due to slow computer, etc...then you can check [HERE](#) on YouTube.

This is a must see. The video was done very well. It seems as though EA is really pulling through with this game.
