Running at ultra high on everything, with 2x AA on 1280*1024 with no problems at all. I'm sure I could do 4x AA I just didn't bother trying since I wanted to get playing. Didn't look for anykind of fps display yet, supposed I could have just ran fraps though. Running it with 2.6Ghz A64 3800+X2, 7900GT, and 2GB RAM.
