Funny, in the Personal message (called: "your a real asshole") you send me you say you assume it is my fault you are banned because shortly afterwards the leader of UN registered to my forums. Not sure but what exactly do you mean with your second PM?:

i wasnt attempting to start anything on un. just hate seeing religion targeted. if they dont like flaming threads then why not get rid of all subjects that cause them. if you read i didnt flame anyone in the religion topic i kept it totally civil.

Ive been told you fucked up another clan. Also every time youve posted on here i never once caused you any problems.

but you should know this.

You havent even started to hear the last from me.

Whats this? Are you threathening me? Instead of making these bullshit accusations, maybe you should think clear before posting a flametopic. And what "other" clan did I fuck up? Cause GDE leadership fucked themselves up by spending donations money for something else. That I found out and posted about it, killing the clan was my duty. Donators had a right to know. Exactly what do you mean you've been "told" I fucked up "another" clan? Cause I actualy helped a clan out, [CMPS.]clan, who will probably become what GDE dreamed of.

And DK, if you are man enough (REAL complement for someone like yourself) to make threats to me in PM on this forum, maybe be man enough to hear the reply instead of putting me on your ignore list.....

There you go again attacking me. Who was it who got you where you were in GDE. you were power hungry and still are. Then you made up a story of how strike was family and how leadership shouldnt accuse someone in family cause that was war. then you made a bunch of accusations with no merit.

Even though i wasnt even involved in all that you still target me as your source of anger.

And no its not a threat, its a promise.

p.s. i wont show what you wrote because i really do understand what the P in p.m. means.
