i believe this thread was about me being kicked from un. Not about GDE or donations. You will use any thread to bring that up. you have a huge chip on your shoulder about it. Something i gues you will drag to your grave and keep bring it up cause you can't ever move on.

You lied about strike being family to justify your story did you also lie to me when you said you were gathering proof against tthom and un and were gonna bring un crashing down with a post you were getting ready to write or was that all a lie to?

When we were in GDE I went to bat for you so many times, but because i didnt believe your bullshit story and leave GDE you broke off our friendship and ever since have been a total dick.

If you want to start a new topic about it all, be my guest, new topic button awaits you. This thread isnt about you, you were never mentioned in this not once but you used it anyway. if you want to post what i said be my guest. Private obvously means squat to you anyway.
