well reck i want to clarify a few things, dk was thinking about quitting his position in gde several times since he didnt have the time to fulfill it properly, or thats what he thought atleast. then since there was no1 there to replace him he decided to stay. slickbud quit since he had no clan activity. he was never on forums, ts or anything. he just played with the tags, and when given the choice to participate or quit he chose to leave. and i can tell you alot more reasons for others quitting. but thats not the point. i just wanted to say that dk never wanted to be the leader he wanted to step down from his site admin role for a while why would he want to be the leader.

i know you both have strong feelings for eachother but why cant you two coexist in a forum or in this community without running into eachother all the time. like slayer and gbull do when it comes to dk. and dk who gives a fuck about being banned from un, even if reck had a role in it, which im not saying he did. do you care?? its only un, tthom as we have seen can ban people for just about anything these days. i would not be surprised to see some one here complaining about being banned by him for farting while in their ts. plus im sure reck has better use for his time then to beg tthom to bann you from his forums.

but at the end of the day this is only a game. and n00bstories is much more fun to play at then un servers anyways.

so why wont you BOTH just move on. i dont even know who started what anymore, do you both really expect members of this forum to follow your bickering?? concetrate on something else for a while, you both got lots of stuff going on to keep you off eachother. now go before i get mad!
