logs:

will be written to "<startupfolder>\logs\"

chat logs will go into a folder called chat
death logs will go into a folder called death and so on. each file will be named eg:
SBChat_<date>.txt
and will look like:

[<time>] roshambo: hello world!

the death log will look like:

[<time>] roshambo killed bla with warhead <warhead> that hit for <damage>
so it could be
[10:10:10] h4x0r killed roshambo with warhead "bullet" that hit for 999999

the other logs will follow this sort of system.
