Now thats just plain nasty.
But make them less vulnerable to sniper bullets, and more vulnerable to NORMAL bullets.

Scenario-
Walls flying, Your on Nod.
You have 4 commanches running aroud their base.
They all have techies inside them.
They keep trying to buy tanks, railgun says no to that, and blows them up.
So they go for mobi's or sydneys, Ramjet says no to that to.

Come on man, thats just TOO strong.
