Completly finished and tested the Acess Level thing, well almost. i just need to impliment the password thing. shouldn't be too hard. im going to make it automaticly reset to something tricky if they try to login in public or team chat. they will have to page themselves ingame to login. one more thing i can almost check off

the code got kinda funky in some places
Add(arr[arr->Length-1]->Substring(0, arr[arr->Length-1]->Length-4));
