Crimson wrote on Tue, 06 March 2007 23:04It isn't being released open source to the best of my knowledge. It doesn't work with a bot, it's a DLL that gets loaded into the server. Bot writers will have to update their software to read the output in the logfiles if they want to display it in IRC.
Yes, currently a test build has been send to the main bot builders, so I hope they will have a updated version / have a plugin ready when we release it.
And NO, it will not be open source.

And NO, it can't block everything and yes renguard is still recommended.
