Subject: what the heck is that link about?
Posted by Oblivion165 on Mon, 16 Jun 2003 03:16:06 GMT

try this one. I have reinstalled lots of times, and took it out of the registry. but ill try it your way.

try this link:

http://robesclan.tripod.com/thing.jpg

ok, copy it and paste it in a new browser window, it seems that the only way it works. God i hate tripod.
