completely agree... first of all i believe renegade should have a drop mode. so if i somehow pick up a repair gun when i am a hottie i can get rid of it. or if im a sakura and get a ramjet with 1 shot why would i want that? or a gunner getting a rocket launcher of the officer.. pointless. aswell as the racing games, in flatout and flatout 2 towards the end i always notice that. no matter how perfect you go never fuck up and take corners perfectly the AI is always on you just waiting for when you do fuck up. or when you are following the AI it sometimes takes a corner that no matter how many times you try you will never be able to do the same on.
