I do it all the time, press the numpad keys, turn numpad on your keyboard on and hit F for third person, press buttons...one at a time....only numbers.....not above the letters...but numpad numbers.....and btw girls on renegade dont have kung fu moves and all...they try to, but then they stop and go back to normal instantly.....and if this doesnt work, get core patch 2.....and if you dunno how, download rengaurd and update it...then you can keep/uninstall it.
