So my brother got a x-box from a friend when he got a 360 and my brother bought Halo 1 and 2 I played and beat them both. Here is what I think.

Seriously, it is a okay game, but it dose nothing innovative and has no replay value at all to me. I barely wanted the finish the game, it was boring. Half-Life 2 is WAY better! In HL2 you can overturn a table and hide behind it and shoot at people, in Halo you can shoot at people and they wont die until you hit them 50 times. Everyone always goes on about how Halo is so fucking awesome and all this shit! No it is not! It is one of the worst games I ever played, and I have played some bad games.

Why do you all claim it is so awesome?

What is it about the game that is not in another FPS?

So you can dual weld big whoop-de-frigging-doo!
