Zeth wrote on Mon, 16 April 2007 09:15why can't you just post it?

if you need hosting, use <http://rapidshare.com>

Rapidshare sucks. It barely let's people download anything, and you have to wait through two or three times... (the nonpremium timelimit, the download time, and the install time) and it only let's people download probably one or two downloads for a day?
