Ok, well, my IRC, box, etc. keeps getting hacked.

Somone joined my IRC, under the name: moot, or mootsie, or moots. I need to know, who the fuck is this guy, and who the fuck he think he is? I am guessing its somone I have pissed off recently, I think its either somone from st0rm, cause I was linked with them, and aca got pissed, and de-linked, or, fl00d3d, (not pointing fingers, just mentioning people I know really hate me..)

Some people say, moot quit renegade, cause he hacked to much, killed him emotionaly, now he came back.

Please, I need info about this guy, who he is, who has heard of him, etc.

Please, don't flame me, I know I kinda deserve it... But still.. I need help.. I would give info to you guys if one you guys were in the same position..
