As for smokers, I don't give a fuck if you want to inhale, but could you refrain from exhaling? Blowing your secondhand smoke and making my clothes smell like shit and bringing that crap into my lungs is BEYOND rude and inconsiderate and I seriously wish you would all die faster from it.
100% agree

In ohio where i live they bann smoking indoors, I like to purposly cough, sometimes people respond back and i just say "if your trying to commit suicide, go ahead, but do it far off awayfrom public so they dont die too" or "Get the heck off, your not 100 feet away from the building" and then most people just stand there continuing to smoke.....
