The Obelisk

Standing tall, overlooking the base,
Keeping the enemy in their place.
Like a pyramid it rises with a ruby crystal affixed at the top,

Majestic it is all shiny and black,
Ready to strike and beat the enemy back.
The Obelisk is powerful and packs quite a punch,
Killing the infantry and vehicles by the bunch.

You may not know it sees you until you get hit.
The reload is slow but only a few shots are needed,
If not for the Obelisk, their attack may have succeeded.
