Deathz0r wrote on Fri, 27 April 2007 17:32also. can u run an fds on a pc and play on the server using the same pc? or wont that work?

im only setting up a small server for friends so i dont really want to have to rent a box >_>

It works on two ways:

#1 Start Your game before you start the FDS.

#2 Add +Multi to your game's command line parameters.
