u6795 wrote on Wed, 02 May 2007 01:23In fieldTS. Get XCC Mixer and extract the .dds, and rename it if necessary.

i can't, because xcc mixer begins reading all of the cnc related files, uses 2.5 gb of ram, then freezes. but somehow i had a chance to see the files in fieldts, but there were no tank related skins. more help pls.
