I have ren working in Kubuntu 7.04 feisty using wine 0.9.33 the only problems i have with ren is 1. no rengaurd and cp2 2. it will crash (ren) sometimes wile loading a map 3. nod apcs r sometimes pink and other veh also don't show up right. other than that it works great. you can even have teamspeak natively on linux. so now ill i need to to wipe the butterfly off my hdd is itunes 7.x in linux natively or through wine.

p.s.

Please make rengaurd for linux natively or run in wine with cp.x
