Why? No one really ought to care. If I spoke in a different language and it sounded like what that guy said, I'd laugh at myself. So seriously, who really cares? What, do you think you're somehow above me because you don't find the paragraph funny? I don't care if he speaks a different language, is black, a girl, or anything about the person. All I see is some very bad English and the way it was written is funny. I mean seriously, are you just trying to be clever here? It really isn't working.

I'd like to know how it's elitist attitude to ask "who cares?". As far as I'm concerned it isn't even suggestive. The only person here who's thinking he's somehow better than anyone is probably you. No one in this entire thread said a word about the person in question, only Oblivion, who for some odd reason brought it up. He says we're passing off the guy as blah blah blah, when, no one even said anything of the sort.

So I'm going to ask again, why are exactly are we caring for someone who isn't even being made fun of, but just the text he wrote? Are you seriously going to make a fuss about it? I sure hope not.
