If you don't like it, don't run it.

Keep in mind, some of the servers auto kick you for not running RG if youve been !force RG'd, and they will auto kick you when the thing loses connection or crashes, but most of the time its RG crashing my game entirely forcing me to restart everything.

And if you say reinstalling RG will fix the problem i am going to E-slap you because it doesnt...

As for the screenshot, faaaar to late for that bro sorry.
